

Accelerate Your ROI With Customized Service and Support

Hands-On Training Backed by Total Support

This offering is designed specifically to give new users of the Pervasive integration platform an immediate working knowledge of the integration development environment, including the command-line interface of the Integration Engine.

Pervasive Professional Services will provide three days of hands-on product training in your environment. After the initial phase of product training, our representative will stay on for an optional fourth or fifth day to work with your team in order to begin implementing a solution. The representative will be available to help provide design suggestions, offer hands-on support, and deliver consultation as needed.

With Fast Track Training and Implementation, you will be able to dramatically shorten the learning curve, reduce project lead times, and ensure a much faster return on your investment in Pervasive software.

Take the Fast Track to Benefits

With the Fast Track Training and Implementation services and Pervasive software, you can:

- **Accelerate deployment and speed ROI.** Intensive training, an efficient architectural design, and customer-focused implementation techniques help shorten the learning curve and allow a quicker return on your investment in Pervasive software.
- **Quickly develop integrations to fit your needs.** A flexible architecture, open repositories, and powerful integration engines fully support large-scale, distributed integration solutions across the enterprise.
- **Minimize your overall integration costs.** Powerful productivity tools and an architecture built for efficient, effective development mean that Pervasive can cut costs throughout the integration process.
- **Choose the service offerings you need.** Fourth and fifth day services are optional, and all Pervasive fast-track services can be used with other Pervasive consultation formats.
- **Leverage Pervasive experience and expertise.** Pervasive professionals have helped over 35,000 customers around the world. We bring to the table a wealth of in-depth product knowledge and proven methodologies that can help optimize your integration projects at every level.

Fast Track Training and Implementation Deliverables

Training Phase

Three days of intensive product training is provided, along with Pervasive courseware and sample repositories.

Implementation Phase (Optional)

A fourth and fifth day can be conducted in a classroom-training format if desired. We will work with customer data and tackle transformation issues specific to that data and environment. This phase can be tailored to suit the complexity of the environment or specific mapping issues.

Note: Pervasive will incur the cost of our representative's travel expenses

Customer Essentials

To facilitate the success of the training and implementation offerings, customers will be asked to:

- Provide a signed, Pervasive training agreement
- Participate in an initial Discovery telephone call with Pervasive to determine scope and capabilities of what can reasonably be accomplished during the engagement

Although not a requirement, sample data before the engagement would be beneficial.

The Best Support You'll Find for Pervasive Solutions

Of course, nobody knows more about Pervasive solutions than we do. Pervasive Professional Services works closely with Pervasive developers and technicians to ensure that our service offerings reflect the very latest advances in Pervasive technology and methods.

With over 20 years experience in developing Pervasive technology for data integration and infrastructures, we will always be your best choice for integration solutions, regardless of project size or type.

Part of a Comprehensive Range of Services

Pervasive services include our worldclass PRIME™ Methodology for rapid implementation, 24/7 online support, training programs, application integration, post-production support, and ongoing consultation.

Whatever your needs, we can work with you to develop flexible, efficient, and cost-effective solutions. And with package pricing for many services, you'll recognize reduced costs as you continue to enhance your Pervasive solutions.

Take Costs Out of Integration

Talk to us today. We'll be glad to tell you how Pervasive solutions can take costs out of integration and accelerate your speed to value.
